Certification

Power BI Data Analyst
Tableau Data Analyst

Education

Vishwakarma Institute of technology, Pune

Master of Computer Application
[July 2014 – June 2017]

G.H. Raisoni Institute of Information Technology, Nagpur

Bachelor of Computer Application
[July 2010 – June 2013]

Technical Skills & Tools

Data Engineering: MS Fabric, Lakehouse, Dataflows, Semantic Models, SSMS, SAP, etc.
Programming: Dax, SQL, PySpark, Python, JS, Asp.net, Html.
Tools: MS Fabric, Power BI, Tableau, Alteryx, MS Power Automate, MS Power Apps, N8N Ai Agents, WordPress, etc.

ABOUT

Business Intelligence Analyst & Senior Power BI Developer with 6+ years of experience in enterprise BI solutions, data modeling, and Microsoft fabric. Skilled in building scalable semantic models, automated KPI frameworks, and actionable dashboards that improve decision-making. Proven ability to reduce manual reporting by 30–70% and improve data accuracy to 99% across pharma, manufacturing, and e-commerce domains.

EXPERIENCE

Viatris Inc. – A Pharmaceutical Company

Senior Data Analyst | June 2022 – Ongoing

- Led development & support of 53 enterprise Power BI reports across 21+ global manufacturing sites, improving visibility for Lab, Quality, Operations, Maintenance, and Supply Chain teams.
- Automated KPI reporting using Microsoft Fabric Data Factory ETL pipelines, dataflow, resulting in well-organized data within a Lakehouse.
- Developed advanced analytics POCs including Control Charts and EMA, Process Monitoring, helping reduce process variation and improve efficiency & defect prevention.
- Developed governance dashboards (Data Catalogue, Admin Dashboard, Report Usage Metrics) helps track reporting requests, issues to improve efficiency of team & super-users reducing support load by 40%.
- Build semantic models and reports using Copilot, AI MCP Server (VS Code) including latest Power Bi features for collaboration.

Siemens Technologies

Data Analyst | March 2021 - March 2022

- Built financial analytics dashboards for HQ leadership, improving visibility into Bid Process Analytics, M&A tracking, and ORCA insights.
- Delivered Power BI solutions using advanced DAX, KPI alerts, measures, and UX-optimized designs that reduced manual reporting by 70%.
- Developed Tableau dashboards using LODs, parameters, and SAP HANA blending for detailed financial insights.
- Implemented a custom Commenting Module on Tableau dashboards, improving collaborative decision making across stakeholders.
- Led requirement gathering, UAT cycles, and cross-team coordination ensuring smooth deployment and product upgrades.

Eaton Technologies –

Data Analyst | Pune | June 2019 – Feb 2021

- Built modern KPI dashboards for 68 global e-commerce stores using Power BI, driving improved sales insights and growth opportunity identification.
- Developed complex multilayer dashboards from a multisite data warehouse, reducing analysis turnaround time by 50%.
- Worked with SQL Server, Google Analytics, and Excel to create automated ETL-ready models with high accuracy.
- Collaborated with Business Analysts for onboarding new e-commerce stores using Oracle Commerce & ATG—improving system scalability.
- Performed daily monitoring and troubleshooting of platforms ensuring 99% data accuracy and uninterrupted reporting workflows.
